be an awful blot upon a on of our county's profit banner, to have these offices go unfilled.

There are candidates, so I learn, fo all the other offices, [and while I make 10 pretension to modesty in these timeof political turmoll, I do not wish to be known as "hoggish," and only announce because no other person has put in a bid for tnese positions.

Should chance or fate decree that two or three more of our offices were to go begging I would make a still greater martyr to my country's cause and take 'hem too' as as my only desire is to help shoulder the burdens of the poor

office holder. To prove that I am guided solely for love of my country I will state that I promise faithfull y if elected to all four of these offices. I will donate every cent make out of Constable,s office to harity and benovolent purposes; and all I make as Supt. of Pub. Inst. and Justice of the peace to the widows an orphans-my wife and son; and only retain the small balance of myself.

My views upou the great topics of the day will please everybody, as I generally have the same as the man I am talking with, and my great desire will be to serve my county and not let it go to destruction.
